International Journal of Forecasting 8 (1992) 659–660
North-Holland

Author Index Volume 8 (1992)

(The issue number is given in parentheses)

Ahlburg, D.A. and **K.C. Land,** Population forecasting: Guest Editors' introduction (3) 289–299
Aksu, C. and **S.I. Gunter,** An empirical analysis of the accuracy of SA, OLS, ERLS and NRLS combination forecasts (1) 27 –43
Alho, J.M., The magnitude of error due to different vital processes in population forecasts (3) 301–314
Armstrong, J.S., Editorial policies for the publication of controversial findings (4) 543–544
Armstrong, J.S., *see* **F. Collopy** (4) 575–582
Armstrong, J.S. and **F. Collopy,** Error measures for generalizing about forecasting methods: Empirical comparisons (1) 69– 80
Assimakopoulos, V. and **A. Konida,** An object oriented approach to forecasting (2) 175–185

Benson, P.G. and **D. Önkal,** The effects of feedback and training on the performance of probability forecasters (4) 559–573
Bhrolchain, M.N., *see* **K. Spicer** (3) 529–539
Bloom, D.E. and **S. Glied,** Projecting the number of new AIDS cases in the United States (3) 339–365
Bos, E. and **R.A. Bulatao,** The demographic impact of AIDS in sub-Saharan Africa. Short- and long-term projections (3) 367–384
Briscoe, G. and **R. Wilson,** Forecasting economic activity rates (2) 201–217
Brockwell, P.J. and **R.J. Hyndman,** On continuous-time threshold autoregression (2) 157–173
Brodie, R.J., *see* **P.J. Danaher** (4) 613–626
Brown, R., *see* **E. Mahmoud** (2) 251–267
Bulatao, R.A., *see* **E. Bos** (3) 367–384

Carter, L.R. and **R.D. Lee,** Modeling and forecasting US sex differentials in mortality (3) 393–411
Chen, R., *see* **S.P. Morgan** (3) 477–493
Coelho, C.H.M., and **M. Tenenblat,** Trading days, seasonal unit root, and variance change (1) 61– 67
Collopy, F. and **J.S. Armstrong,** Expert opinions about extrapolation and the mystery of the overlooked discontinuities (4) 575–582
Collopy, F., *see* **J.S. Armstrong** (1) 69– 80
Cosset, J.-C., *see* **M. Oral** (4) 583–593

Danaher, P.J. and **R.J. Brodie,** Predictive accuracy of simple versus complex econometric market share models. Theoretical and empirical results (4) 613–626
Dangerfield, B.J. and **J.S. Morris,** Top-down or bottom-up: Aggregate versus disaggregate extrapolations (2) 233–241
Daouas, M., *see* **M. Oral** (4) 583–593
Dattero, R., *see* **E.M. White** (4) 595–611
De Gooijer, J.G. and **K. Kumar,** Some recent developments in non-linear time series modelling, testing, and forecasting (2) 135–156
DeRoeck, R., *see* **E. Mahmoud** (2) 251–267
Diamond, I., *see* **K. Spicer** (3) 529–539
Doll, J.M., *see* **L.S.-Y. Wu** (4) 545–557

Edmonston, B. and **J.S. Passel,** Immigration and immigrant generations in population projections (3) 459–476

Fildes, R., The evaluation of extrapolative forecasting methods (1) 81– 98
Flores, B., *see* **E.M. White** (4) 595–611

Glied, S., *see* **D.E. Bloom** (3) 339–365
Granger, C.W.J., Forecasting stock market prices: Lessons for forecasters (1) 3– 13
Gunter, S.I., *see* **C. Aksu** (1) 27– 43
Gunter, S.I., Nonnegativity restricted least squares combinations (1) 45– 59

Hosking, J.R.M., *see* **L.S.-Y. Wu** (4) 545–557
Hyndman, R.J., *see* **P.J. Brockwell** (2) 157–173

Joutz, F. and **R. Trost,** Using stochastic simulation to test the effect of seasonal adjustment on forecast standard errors of motor gasoline demand (2) 219–231

Kettani, O., *see* **M. Oral** (4) 583–593
Konida, A., *see* **V. Assimakopoulos** (2) 175–185
Kontzalis, P., Identification of key attributes, gap analysis and simulation techniques in forecasting market potential of ethical pharmaceutical products (2) 243–249
Kumar, K., *see* **J.G. De Gooijer** (2) 135–156

Lawrence, M. and **M. O'Connor,** Exploring judgemental forecasting (1) 15– 26
Land, K.C., *see* **D.A. Ahlburg** (3) 289–299
Lee, R.D., Stochastic demographic forecasting (3) 315–327
Lee, R.D., *see* **L.R. Carter** (3) 393–411

Mahmoud, E., R. DeRoeck, R. Brown and **G. Rice,** Bridging the gap between theory and practice in forecasting (2) 251–267
Manton, K.G., E. Stallard and **B. Singer,** Projecting the future size and health status of the US elderly population (3) 433–458
Mason, A. and **R. Racelis,** A comparison of four methods for projecting households (3) 509–527
McNown, R. and **A. Rogers,** Forecasting cause-specific mortality using time series methods (3) 413–432
Morgan, S.P. and **R. Chen,** Predicting childlessness for recent cohorts of American women (3) 477–493
Morris, J.S., *see* **B.J. Dangerfield** (2) 233–241

Önkal, D., *see* **P.G. Benson** (4) 559–573
Oral, M., O. Kettani, J.-C. Cosset and **M. Daouas,** An estimation model for country risk rating (4) 583–593
O'Connor, M., *see* **M. Lawrence** (1) 15– 26

Passel, J.S., *see* **B. Edmonston** (3) 459–476
Pflaumer, P., Forecasting US population totals with the Box–Jenkins approach (3) 329–338

Racelis, R., *see* **A. Mason** (3) 509–527
Rice, G., *see* **E. Mahmoud** (2) 251–267
Rogers, A., *see* **R. McNown** (3) 413–432

Scott, S., An extended review of the X11ARIMA seasonal adjustment package (4) 627–633
Shoesmith, G.L., Non-cointegration and causality: Implications for VAR modeling (2) 187–199
Sincich, T., *see* **S.K. Smith** (3) 495–508
Singer, B., *see* **K.G. Manton** (3) 433–458
Smith, S.K. and **T. Sincich,** Evaluating the forecast accuracy and bias of alternative population projections for states (3) 495–508
Spicer, K., I. Diamond and **M.N. Bhrolchain,** Into the twenty-first century with British households (3) 529–539
Stallard, E., *see* **K.G. Manton** (3) 433–458

Tenenblat, M., *see* **C.H.M. Coelho** (1) 61– 67
Trost, R., *see* **F. Joutz** (2) 219–231
Tuljapurkar, S., Stochastic population forecasts and their uses (3) 385–391

White, E.M., R. Dattero and **B. Flores,** Combining vector forecasts to predict thoroughbred horse race outcomes (4) 595–611
Wilson, R., *see* **G. Briscoe** (2) 201–217
Wu, L.S.-Y., J.R.M. Hosking and **J.M. Doll,** Business planning under uncertainty. Will we attain our goal? (4) 545–557

Book Reviews

Fields, P.J., *Review of* S.A. Delurgio and C.D. Bhame, Forecasting Systems for Operations Management (4) 644–646
Fildes, R., *Review of* E.R. Berndt, The Practice of Econometrics: Classical and Contemporary (2) 269–270
Fildes, R., *Review of* A. Harvey, Forecasting Structural Time Series Models and the Kalman Filter and M. West and J. Harrison, Bayesian Forecasting and Dynamic Models (4) 635–637
Flavell, R., *Review of* W.T. Ziemba, W. Bailey and T. Hamao, Japanese Financial Market Research (2) 270–271

International Journal of Forecasting 8 (1992) 661–662
North-Holland

Subject Index Volume 8 (1992)

(The issue number is given in parentheses)

Accounting earnings (1) 27
Accuracy of forecasts (1) 27, 45
Age–sex-specific mortality (3) 393
Aggregate forecasts (2) 233
Aging (3) 315, 367
AIDS (3) 339
ARCH (2) 135
ARIMA models (3) 413, (4) 627

Bilinear (2) 135
Birth probabilities (3) 477

Calibration (4) 559
Causality (2) 187
Childlessness (3) 477
Chronic disease (3) 433
Cointegration (2) 187, (3) 393
Cohort models (3) 477
study (3) 433
Combining forecasts (1) 27, 45
Common factor (1) 61
Comparative methods – time series (1) 81
Competing risks (3) 433
Conjoint analysis (2) 243
Continuous-time autoregression (2) 157
Correspondence analysis (2) 243
Country risk (4) 583
Covariance decomposition (4) 559
CUSUMS (2) 135

De facto status (3) 529
Decision analysis (3) 385
Demographic methods (3) 509
Demographic projections and forecasts (3) 495
Dependency (3) 315
Difference equations (3) 329
Discontinuities (4) 575

Econometric model (4) 613
Economic activity rates (2) 201
Efficient markets (1) 3
Equality restricted least squares (1) 27
Error correction (2) 187
Estimation (1) 27, (2) 157, (4) 583
Evaluation – methodology (1) 81
Evaluation – time series methods (1) 81
Event forecasting (4) 595
Ex ante (1) 81
Exponential AR (2) 135
Extrapolation (4) 627

Family forecasts (2) 233
Fertility (3) 301, 315, 477
Forecast accuracy (1) 69, (3) 329, 393
Forecast combination (4) 595
Forecast confidence intervals (2) 219
Forecast practice (2) 251
Forecastability (1) 3
Forecasting guidelines (4) 575
Forecasting market share (2) 243
Forecasting process (2) 251
Foreign-born population (3) 459

Gap analysis (2) 243
Generations (3) 459
Gross national product (1) 27, 45

Headship rates (3) 529
HIV/AIDS modelling *see also* AIDS (3) 367
Household projection (3) 509, 529

Identification (2) 135
